Restaurant Booking, now through Arzoo

Sabeer Bhatia's online travel initiative [Arzoo.com](#) has now added a new feature to its offerings called [book-a-table](#). Anyone may now book a table at almost any restaurant in India, over a phone call to a single number. The company has setup call centers nationwide to handle this. "The idea behind this service is that one would not have to store or remember phone numbers of various restaurants across Mumbai. Arzoo.com would also be in a position to suggest a convenient restaurant of choice to a new comer in the city on the basis of his location proximity." said a representative from Arzoo.

Falls View Restaurant

View Niagara Falls While you dine. 34 Storey's above Niagara Falls.
